## DEDICATION

SUSIE JANE (JONES) FOOTE

Susie Foote was born on November 26, 1891, on Forest Street in Salisbury, near the Seabrook line. She rode the electric car from her home to school in Salisbury and later to Newburyport High School where she graduated as The class valedictorian in 1909. She worked as a secretary at the Towle Manufacturing Company in

Newburyport and lived in Salisbury until 1918 when she married Lucien Wilbur Foote and moved to South Main Street, Seabrook, where she still resides.

Women were given the right to vote in 1920 and Susie was one of the first women to register to vote in Seabrook. She registered in September of 1920 to vote in the primary election and she quite possibly was the first woman to vote in the town.

On July 31, 1936, Susie was appointed to the position of Seabrook Postmaster by President Roosevelt. She served faithfully in that position until her retirement in 1956.

In September, 1990 Susie was honored to receive the Boston Post Cane which is presented to the oldest citizen of a community.

Susie and Wilbur had two sons: Lucien W. Foote (1922-1979) and John R. Foote (1926-1991). She has six grandchildren: Donald Foote, Lucien Foote and Susan Foote, all of Seabrook, Catherine Silver of South Hampton, Patricia Heywood of Rowley and David Foote of Nashua. She has ten great grandchildren and seven great, great grandchildren. Other family members include a sister: Dorothy Small, a nephew: Samuel "Barney" Small and a niece: Lillian Dow, all of Seabrook.

Susie has enjoyed good health throughout her life. She especially enjoyed taking daily walks until she was well into her nineties. She has also enjoyed a lifelong love of gardening and bird watching. She still feeds her favorite chickadees and remembers when bluebirds and scarlet tanagers were quite common.

Having reached the age of one hundred, Susie has seen a great many changes. She remembers when electric cars and trains were the way to travel. As a girl, she and her brothers and sisters would run to the end of the driveway to see Doctor Murphy from Amesbury drive by in his new automobile on his way to make his house calls in Seabrook. She remembers a time without hot and cold running water, electricity, radio and television. She lived in a time when everyone had a cow, a garden, little money and life was much simpler. At one time, she knew every resident of Seabrook, but those days are gone too.

In recognition of her 100th birthday, the Selectmen of the Town of Seabrook proclaimed Tuesday, November 26, 1991, "SUSIE J. FOOTE DAY" and hereby dedicate this town report to her in appreciation of her many accomplishments, contributions and devotion to her family, friends and community.

Article 2: Are you in favor of the adoption of amendment number 1 as proposed by the Planning Board for the Town Zoning Ordinance as follows?

1. To amend Section 263-3 of the Seabrook Zoning Ordinance, "Definitions", by adding the following:

COMMERCIAL ENTERTAINMENT - means any show or display, whether live, by film or by other means of presentation, which is provided in exchange for value received or pledged. Commercial entertainment does not include the dissemination of material which is obscene, as those terms are defined by Chapter 650 of the Revised Statutes Annotated of New Hampshire.

COMMERCIAL RECREATION means any game or amusement which is provided in exchange for value received or pledged. Such game or amusement shall not necessarily require any skill on the part of any participant. Commercial recreation shall not include the dissemination of any material which is obscene, as those terms are defined by Chapter 650 of the Revised Statutes Annotated of New Hampshire.

COMMERCIAL AMUSEMENTS - means any game or amusement which is provided in exchange for value received or pledged. Such game or amusement shall not necessarily require any skill on the part of the participant. Commercial amusements shall not include the dissemination of any material which is obscene, as those terms are defined by Chapter 650 of the Revised Statutes Annotated of New Hampshire.

Article 3: Are you in favor of the adoption of amendment number 2 as proposed by the Planning Board for the Town Zoning Ordinance as follows?

2. To amend Article VII, Section 263-53 of the Seabrook Zoning Ordinance, by deleting that section as it is presently stated and replacing it with the following:

263-53 Sign Ordinance

No sign shall be erected without a sign permit issued by the Building Inspector. Said permit will be dated by the Building Inspector. All signs shall adhere to the minimum requirement set forth in Table 3 below:

Table 3

SIGNS

Zoning Districts

	1 & 2R	2 & 3	4 & 5
1. Maximum Cumulative Area (sq. ft.) of all free standing signs.	16	150	0
2. Maximum area of all roof signs.	0	32	0
3. Maximum number of free standing signs per lot.	1	2	0

4. Maximum number of roof signs per business.	0	1	0
5. Height of sign (above grade).			
Maximum	15'	35'	0
Minimum	6'	6'	0
6. Setback from lot line and/or edge of pavement.	10'	10'	-

Not withstanding the above, in addition to the signage that is normally permitted in Table 3, each lot shall be allowed without a sign permit:

1. Entrance and Exit signs less than 3 square feet per side and less than 3 feet above grade.

2. One temporary real estate sign, one temporary contractor's sign and one temporary yard sale sign. Temporary signs may be posted for not longer than sixty consecutive days and no more than one hundred and twenty-five days in any calendar year.

3. Wall signs up to a maximum of 10% of the wall surface.

4. Temporary political signs which may be posted for not longer than ninety consecutive days and no more than one hundred and eighty days in any calendar year.

5. Roadside produce signs (not to exceed 30 square feet per lot).

6. One temporary sign per business that is less than 3 feet in height and 6 square feet in area. Temporary signs are allowed for a maximum of 30 days per calendar year.

7. Municipal signs.

The following signs are PROHIBITED in the Town of Seabrook:

A. Animated, moving, flashing, intensely lighted signs and signs that emit audible sounds, noises or visible matter.

B. Non-Accessory signs and bill boards.

C. Signs painted on or attached to a vehicle or trailer parked on the property for the purpose of providing advertisement of products or directing people or a business or activity located on the property. The purpose of the placement of such signs shall be determined by an objective analysis of the placement of the vehicle on the property, the times the vehicle bearing signs is parked on the property and other related factors. This section is not intended to prohibit any signage on vehicles used on the street or highway for businesses on the property.

D. Signs that block the view of any traffic, street sign or traffic signal.

E. Signs which bear or contain statements, words, or pictures which constitute the dissemination of any material which is obscene as those terms are defined by Chapter 650 of the Revised Statutes Annotated of New Hampshire.

F. Roof signs made of combustible material.

G. Non-conforming signs in place prior to this ordinance may not be altered or repaired.

Article 4: On petition of Charles H. Felch, Sr., and thirty-four (34) other legal voters of the town: To see what action the town will take on the following:

3. To amend Section 263-5 of the zoning ordinance and the official zoning map of the Town of Seabrook by including the following:

Zone 2 shall be confined to those areas within 500 feet of Lafayette Road, or to the rear lot line of any lots now existing, which abuts Lafayette Road, with the exception of those areas now in Zone 3 and all other areas of Zone 2 shall remain the same.

(Recommended by the Planning Board)  
(On the Official Ballot)

YES 978 NO.485

Article 5: On petition of Rob T. Brown and thirty-two (32) other legal voters of the town: To see what action the town will take on the following: We the undersigned legal voters of the Town of Seabrook, New Hampshire, petition to amend Chapter 263-5 of the Seabrook Zoning Ordinance to include a "Zone 6" and "Zone 7" and to amend Section 263-65 by adding the following ordinance:

4. An ordinance amending the Town of Seabrook Zoning Ordinance by dispersing sexually oriented businesses and limiting them to a specified zoning district; providing for licensing and regulation of sexually oriented businesses; and creating two additional zoning classifications to be known as "zone 6" and "zone 7".

Pursuant to the authority granted by the Constitution and General Court of the State of New Hampshire, BE IT ENACTED BY THE TOWN OF SEABROOK OF ROCKINGHAM COUNTY, NEW HAMPSHIRE:

SECTION I. Purpose and Intent.

It is the purpose of this ordinance to regulate sexually oriented businesses to promote the health, safety, morals, and general welfare of the citizens of the Town, and to establish reasonable and uniform regulations to prevent the continued deleterious location and concentration of sexually oriented businesses within the Town. The provisions of this ordinance have neither the purpose nor effect of imposing a limitation or restriction on the content of any communicative materials, including sexually oriented materials. Similarly, it is not the intent nor effect of this ordinance to restrict or deny access by adults to sexually oriented materials protected by the First Amendment, or to deny access by the distributors and exhibitors of sexually oriented entertainment to their intended market. Neither is it the intent nor effect of this ordinance to condone or legitimize the distribution of obscene material.

SECTION II. Definitions.

(1) ADULT ARCADE means any place to which the public is permitted or invited wherein coin-operated or slug-operated or electronically, electrically, or mechanically controlled still or motion picture machines, projectors, or other image-producing devices are maintained to show images to five or fewer persons per machine at any one time, and where the images so displayed are distinguished or characterized by the depicting or describing of "specified sexual activities" or "specified anatomical areas."

(8) ESCORT AGENCY means a person or business association who furnishes, offers to furnish, or advertises to furnish escorts as one of its primary business purposes for a fee, tip, or other consideration.

(9) ESTABLISHMENT means and includes any of the following:

(A) the opening or commencement of any sexually oriented business as a new business;

(B) the conversion of an existing business, whether or not a sexually oriented business, to any sexually oriented business;

(C) the additions of any sexually oriented business to any other existing sexually oriented business; or

(D) the relocation of any sexually oriented business.

(10) PERMITTEE and/or LICENSEE means a person in whose name a permit and/or license to operate a sexually oriented business has been issued, as well as the individual listed as an applicant on the application for a permit and/or license.

(11) NUDE MODEL STUDIO means any place where a person who appears in a state of nudity or displays "specified anatomical areas" is provided to be observed, sketched, drawn, painted, sculptured, photographed, or similarly depicted by other persons who pay money or any form of consideration.

(12) NUDITY or a STATE OF NUDITY means the appearance of a human bare buttock, anus, male genitals, female genitals, or female breast.

(13) PERSON means an individual proprietorship, partnership, corporation, association, or other legal entity.

(14) SEMI-NUDE means a state of dress in which clothing covers no more than the genitals, pubic region, and areolae of the female breast, as well as portions of the body covered by supporting straps or devices.

(15) SEXUAL ENCOUNTER CENTER means a business or commercial enterprise that, as one of its primary business purposes, offers for any form of consideration:

(A) physical contact in the form of wrestling or tumbling between persons of the opposite sex; or

(B) activities between male and female persons and/or persons of the same sex when one or more of the persons is in a state of nudity or semi-nude.

(16) SEXUALLY ORIENTED BUSINESS means an adult arcade, adult bookstore or adult video store, adult cabaret, adult motel, adult motion picture theater, adult theater, escort agency, nude model studio, or sexual encounter center.

(17) SPECIFIED ANATOMICAL AREAS means the male genitals in a state of sexual arousal and/or the vulva or more intimate parts of the female genitals.

(18) SPECIFIED SEXUAL ACTIVITIES means and includes any of the following:

(A) the fondling or other erotic touching of human genitals, pubic region, buttocks, anus, or female breasts;

(B) sex acts, normal or perverted, actual or simulated, including intercourse, oral copulation, or sodomy;

(C) masturbation, actual or simulated; or

(D) excretory functions as part of or in connection with any of the activities set forth in (A) through (C) above.

(19) SUBSTANTIAL ENLARGEMENT of a sexually oriented business means the increase in floor areas occupied by the business by more than twenty-five (25%) percent, as the floor areas exist on April 1, 1991.

(20) TRANSFER OF OWNERSHIP OR CONTROL of a sexually oriented business means and includes any of the following:

- (A) the sale, lease, or sublease of the business
- (B) the transfer of securities which constitute a controlling interest in the business, whether by sale, exchange, or similar means; or
- (C) the establishment of a trust, gift, or other similar legal device which transfers the ownership or control of the business, except for transfer by bequest or other operation of law upon the death of the person possessing the ownership or control.

### SECTION III. Classification.

Sexually oriented businesses are classified as follows:

- (1) adult arcades;
- (2) adult bookstores or adult video stores;
- (3) adult cabarets;
- (4) adult motels;
- (5) adult motion pictures;
- (6) adult theaters;
- (7) escort agencies;
- (8) nude model studios;
- (9) sexual encounter centers.

### SECTION IV. Permit and/or License Required.

- (A) A person commits a misdemeanor if he operates a sexually oriented business without a valid permit and/or license, issued by the Town of the particular type of business.
- (B) An application for a permit and/or license must be made on a form provided by the Town of Seabrook Building Inspector. The application must be accompanied by a sketch or diagram showing the configuration of the premises, including a statement of total floor space occupied by the business. The sketch or diagram need not be professionally prepared but must be drawn to a designated scale or drawn with marked dimensions of the interior of the premises to an accuracy of plus or minus six inches.
- (C) The applicant must be qualified according to the provisions of this chapter and the premises must be inspected and found to be in compliance with the law by the health department, fire department, and building inspector.
- (D) If a person who wishes to operate a sexually oriented business is an individual, he must sign the application for a permit and/or license as applicant. If a person who

wishes to operate a sexually oriented business is other than an individual, each individual who has a ten (10%) percent or greater interest in the business must sign the application for a permit and/or license as applicant. If a corporation is listed as owner of a sexually oriented business or as the entity which wishes to operate such a business, each individual having a ten (10%) percent or greater interest in the corporation must sign the application for a permit and/or license as applicant.

(E) The fact that a person possesses other types of state or county permits and/or licenses does not exempt him from the requirement of obtaining a sexually oriented business permit and/or license from the Town of Seabrook.

#### SECTION V. Issuance of Permit and/or License

The Town of Seabrook Board of Selectmen shall approve the issuance of a permit and/or license to an applicant within 30 days after receipt of an application unless the Board of Selectmen finds one or more of the following to be true:

- (1) An applicant is under eighteen (18) years of age.
- (2) An applicant or an applicant's spouse is overdue in his payment to the County of taxes, fees, fines, or penalties assessed against him or imposed upon him in relation to a sexually oriented business.
- (3) An applicant has failed to provide information reasonably necessary for issuance of the permit and/or license or has falsely answered a question or request for information on the application form.
- (4) An applicant is residing with a person who has been denied a permit and/or license by the County to operate a sexually oriented business within the preceding twelve (12) months, or residing with a person whose license to operate a sexually oriented business has been revoked within the preceding twelve (12) months.
- (5) The premises to be used for the sexually oriented business have not been approved by the health officer, fire department, and the building inspector as being in compliance with applicable laws and ordinances.
- (6) The permit and/or license fee required by this ordinance has not been paid.
- (7) An applicant of the proposed establishment is in violation of or is not in compliance with any of the provisions of this ordinance.
- (8) The permit and/or license, if granted, shall state on its face the name of the person or persons to whom it is granted, the expiration date, and the address of the sexually oriented business. The permit and/or license shall be posted in a conspicuous place at or near the entrance to the sexually oriented business so that it may be easily read at any time.

The health officer, fire department, and the building inspector shall complete their certification that the premises is in compliance or not in compliance within twenty (20) days of receipt of the application

by the Board of Selectmen. The certification shall be promptly presented to the Board of Selectmen.

#### SECTION VI. Fees.

The annual fee for a sexually oriented business permit and/or license is Five Hundred (\$500.00) Dollars.

#### SECTION VII. Inspection.

(A) An applicant, or permittee and/or licensee shall permit representatives of the Sheriff's Department, Health Department, Fire Department, Zoning Department, or other Town, County, or State departments or agencies to inspect the premises of a sexually oriented business for the purpose of insuring compliance with the law, at any time it is occupied or open for business.

(B) A person who operates a sexually oriented business or his agent or employee commits a misdemeanor if he refuses to permit such lawful inspection of the premises at any time it is occupied or open for business.

#### SECTION VIII. Expiration of Permit and/or License.

(A) Each permit and/or license shall expire one year from the date of issuance and may be renewed only by making application as provided in Section V. Application for renewal should be made at least thirty (30) days before the expiration date, and when made less than thirty (30) days before the expiration date, the expiration of the permit and/or license will not be affected.

(B) When the Town of Seabrook Board of Selectmen denies renewal of a license, the applicant shall not be issued a permit and/or license for one year from the date of denial. If, subsequent to denial, the Town of Seabrook Board of Selectmen finds that the basis for denial of the renewal permit and/or license has been corrected or abated, the applicant may be granted a permit and/or license if at least ninety (90) days have elapsed since the date denial became final.

#### SECTION IX. Suspension.

The Seabrook Board of Selectmen shall suspend a permit and/or license for a period not to exceed thirty (30) days if the Board determines that a permittee and/or licensee or an employee of a permittee and/or licensee has:

- (1) violated or is not in compliance with any section of this ordinance;
- (2) engaged in excessive use of alcoholic beverages while on the sexually oriented business premises;
- (3) refused to allow an inspection of the sexually oriented business premises as authorized by this chapter;
- (4) knowingly permitted gambling by any person on the sexually oriented business premises.

## SECTION X. Revocation.

(A) The Seabrook Board of Selectmen shall revoke a permit and/or license if a cause of suspension in Section IX occurs and the permit and/or license has been suspended within the preceding twelve (12) months.

(B) The Seabrook Board of Selectmen shall revoke a permit and/or license if the Board determines that:

(1) a permittee and/or licensee gave false or misleading information in the material submitted to the Board of Selectmen during the application process;

(2) a permittee and/or licensee or an employee has knowingly allowed possession, use, or sale of controlled substances on the premises;

(3) a permittee and/or licensee or an employee has knowingly allowed prostitution on the premises;

(4) a permittee and/or licensee or an employee has knowingly operated the sexually oriented business during a period or time when the permittee's and/or licensee's permit and/or license was suspended;

(5) a permittee and/or licensee or an employee has knowingly allowed any act of sexual intercourse, sodomy, oral copulation, masturbation, or other sexual conduct to occur in or on the permitted and/or licensed premises;

(6) a permittee and/or licensee is delinquent in payment to the Town or State for any taxes or fees past due.

(C) When the Seabrook Board of Selectmen revokes a permit and/or license, the revocation shall continue for one (1) year, and the permittee and/or licensee shall not be issued a sexually oriented business permit and/or license for one (1) year from the date revocation became effective. If, subsequent to revocation, the Seabrook Board of Selectmen finds that the basis for the revocation has been corrected or abated, the applicant may be granted a permit and/or license if at least ninety (90) days have elapsed since the date the revocation became effective.

(D) After denial of an application, or denial of a renewal of an application, or suspension or revocation of a permit and/or license, the applicant or licensee or permittee may seek prompt judicial review of such administrative action in any court of competent jurisdiction. The administrative action shall be promptly reviewed by the court.

## SECTION XI. Transfer of Permit and/or License.

A permittee and/or licensee shall not transfer his permit and/or license to another, nor shall a permittee and/or licensee operate a sexually oriented business under the authority of a permit and/or license at any place other than the address designated in the application.

## SECTION XII. Location of Sexually Oriented Businesses.

(A) The Town of Seabrook Zoning Ordinance is hereby amended by creating an additional zoning classification to be designated Commercial/Industrial "Zone 6" as delineated on map found on Page 14 of this document. The permitted principal uses and structures shall be those enumerated in Section 263-12 of the Town of Seabrook Zoning Ordinance as well as the following:

- (1) adult arcades;
- (2) adult bookstores or adult video stores;
- (3) adult cabarets;
- (4) adult motels;
- (5) adult motion picture theaters;
- (6) adult theaters;
- (7) escort agencies;
- (8) nude model studios; and
- (9) sexual encounter centers.

The permitted accessory uses and structures; permitted special exceptions; prohibited uses and structures; minimum lot area; minimum lot width; minimum yard requirements; maximum lot coverage by all buildings; maximum height of structures; minimum off-street parking and loading requirements; and sign regulations shall be the same as those required under the Zone 7 zoning district classification, and as cited in Sections 263-19 and 263-20 of the Town of Seabrook Zoning Ordinance.

(B) A person commits a misdemeanor if he operates or causes to be operated a sexually oriented business outside of a designated Zone 6 district. All sexually oriented businesses shall be located within a Zone 6 district.

(C) A person commits a misdemeanor if he operates or causes to be operated a sexually oriented business within five hundred (500') feet of:

- (1) a church;
- (2) a public or private elementary or secondary school;
- (3) a boundary of any residential district;
- (4) a public park adjacent to any residential district;
- (5) the property line of a lot devoted to residential use.

(D) A person commits a misdemeanor if he causes or permits the operation, establishment, substantial enlargement, or transfer of ownership of control of a sexually oriented

business within one thousand (1,000') feet of another sexually oriented business.

(E) A person commits a misdemeanor if he causes or permits the operation, establishment, or maintenance of more than one sexually oriented business in the same building, structure, or portion thereof, or the increase of floor areas of any sexually oriented business in any building, structure, or portion thereof containing another sexually oriented business.

(F) For the purpose of this ordinance, measurement shall be made in a straight line, without regard to intervening structures or objects, from the nearest portion of the building or structure used as a part of the premises where a sexually oriented business is conducted, to the nearest property line of the premises of a church or public or private elementary or secondary school, or to the nearest boundary of an affected public park, residential district, or residential lot.

(G) For purposes of Subsection (D) of this section, the distance between any two sexually oriented businesses shall be measured in a straight line, without regard to intervening structures or objects, from the closest exterior wall of the structure in which each business is located.

(H) Any sexually oriented business lawfully operating on April 1, 1991, that is in violation of Subsection (A) through (G) of this section shall be deemed a nonconforming use. The nonconforming use will be permitted to continue for a period not to exceed two years, unless sooner terminated for any reason or voluntarily discontinued for a period of thirty (30) days or more. Such nonconforming uses shall not be increased, enlarged, extended or altered except that the use may be changed to a conforming use. If two or more sexually oriented businesses are within 1,000 feet of one another and otherwise in a permissible location, the sexually oriented business which was first established and continually operating at a particular location is the conforming use and the later-established business(es) is nonconforming.

(I) A sexually oriented business lawfully operating as a conforming use is not rendered a nonconforming use by the location, subsequent to the grant or renewal of the sexually oriented business permit and/or license, of a church, public or private elementary or secondary school, public park, residential district, or a residential lot within five hundred (500') feet of the sexually oriented business. This provision applies only to the renewal of a valid permit and/or license, and does not apply when an application for a permit and/or license is submitted after a permit and/or license has expired or has been revoked.

#### SECTION XIII. Additional Regulations for Adult Motels.

(A) Evidence that a sleeping room in a hotel, motel, or a similar commercial establishment has been rented and vacated two or more times in a period of time that is less than ten (10) hours creates a rebuttable presumption that the establishment is an adult motel as that term is defined in this chapter.

(B) A person commits a misdemeanor if, as the person in control of a sleeping room in a hotel, motel, or similar commercial establishment that does not have a sexually oriented permit and/or license, he rents or subrents a sleeping room to a person and, within ten (10) hours from the time the room is rented, he rents or subrents the same sleeping room again.

(C) For purposes of Subsection (B) of this section, the terms "rent" or "subrent" mean the act of permitting a room to be occupied for any form of consideration.

#### SECTION XIV. Regulations, Pertaining to Exhibition of Sexually Explicit Films or Videos.

(A) A person who operates or causes to be operated a sexually oriented business, other than an adult motel, which exhibits on the premises in a viewing room of less than one hundred fifty (150) square feet of floor space, a film, video cassette, or other video reproduction which depicts specified sexual activities or specified anatomical areas, shall comply with the following requirements:

(1) Upon application for a sexually oriented permit and/or license, the application shall be accompanied by a diagram of the premises showing a plan thereof specifying the location of one or more manager's stations and the location of all overhead lighting fixtures and designating any portion of the premises in which patrons will not be permitted. A manager's station may not exceed thirty-two (32) square feet of floor area. The diagram shall also designate the place at which the permit will be conspicuously posted, if granted. A professionally prepared diagram in the nature of an engineer's or architect's blueprint shall not be required; however, each diagram should be oriented to the north or to some designated street or object and should be drawn to a designated scale or with marked dimensions sufficient to show the various internal dimensions of all areas of the interior of the premises to an accuracy of plus or minus six (6") inches. The Seabrook Board of Selectmen may waive the foregoing diagram for renewal applications if the applicant adopts a diagram that was previously submitted and certifies that the configuration of the premises has not been altered since it was prepared.

(2) The application shall be sworn to be true and correct by the applicant.

(3) No alteration in the configuration or location of a manager's station may be made without the prior approval of the Board of Selectmen.

(4) It is the duty of the owners and operator of the premises to ensure that at least one employee is on duty and situated in each manager's station at all times that any patron is present inside the premises.

(5) The interior of the premises shall be configured in such a manner that there is an unobstructed view

from a manager's station of every area of the premises to which any patron is permitted access for any purpose excluding restrooms. Restrooms may not contain video reproduction equipment. If the premises has two or more manager's stations designated, then the interior of the premises shall be configured in such a manner that there is an unobstructed view of each area of the premises to which any patron is permitted access for any purpose from at least one of the manager's stations. The view required in this subsection must be by direct line of sight from the manager's station.

(6) It shall be the duty of the owners and operator, and it shall also be the duty of any agents and employees present in the premises to ensure that the view area specified in subsection (5) remains unobstructed by any doors, walls, merchandise, display racks or other materials at all times and to ensure that no patron is permitted access to any area of the premises which has been designated as an area in which patrons will not be permitted in the application filed pursuant to subsection (1) of this section.

(7) No viewing room may be occupied by more than one person at any time.

(8) The premises shall be equipped with overhead lighting fixtures of sufficient intensity to illuminate every place to which patrons are permitted access at an illumination of not less than one (1.0) foot-candle as measured at the floor level.

(9) It shall be the duty of the owners and operator and it shall also be the duty of any agents and employees present in the premises to ensure that the illumination described above, is maintained at all times that any patron is present in the premises.

(B) A person having a duty under subsection (1) through (9) of subsection (A) above commits a misdemeanor if he knowingly fails to fulfill that duty.

#### SECTION XV. Exemptions.

(A) It is a defense to prosecution under sections V and XII that a person appearing in a state of nudity did so in a modeling class operated:

(1) by a proprietary school, licensed by the State of New Hampshire; a college, junior college, or university supported entirely or partly by taxation;

(2) by a private college or university which maintains and operates educational programs in which credits are transferable to a college, junior college, or university supported entirely or partly by taxation; or

(3) in a structure:

(a) which has no sign visible from the exterior of the structure and no other advertising that

indicates a nude person is available for viewing; and

(b) where, in order to participate in a class a student must enroll at least three (3) days in advance of the class; and

(c) where no more than one nude model is on the premises at any one time.

#### SECTION XVI. Injunction.

A person who operates or causes to be operated a sexually oriented business without a valid permit and/or license or in violation of Section XII of this ordinance is subject to a suit for injunction as well as prosecution for criminal violations. Such violations shall be punishable by a fine of \$200.00 or thirty days imprisonment.

#### SECTION XVII. Location of Buffer Zone.

The Town of Seabrook Zoning Ordinance is hereby amended by creating an additional zoning classification to be designated Commercial/Industrial "Zone 7" as delineated on map found on Page 14 of this document. The permitted principal uses and structures shall be:

- (A) Farm buildings for the operation of farms.
- (B) Retail businesses and wholesale businesses incidental to the principal retail business.
- (C) Gasoline stations, but not including the outdoor storage of inoperative and unregistered automobiles, provided that no new gasoline station shall be located within a one thousand (1,000') foot radius of an existing gasoline station.
- (D) Banks and offices.
- (E) Commercial recreation, amusements and entertainment which is conducted within the confines of a building.
- (F) Restaurants and lounges.
- (G) Hotels and motels.
- (H) Public utility buildings.
- (I) Theaters and halls.
- (J) Warehousing, storage or wholesaling establishment.
- (K) Manufacturing of such a nature that the use is not obnoxious or injurious to the health and safety of the community.
- (L) Accessory uses of structures and open spaces normally incidental to the permitted use of the premises.

#### SECTION XVIII. Setback from Interstate 95.

The Town of Seabrook Zoning Ordinance is hereby amended by adding the following subsection (D) to Section 263-20:

(D) There shall be a twenty (20') foot setback requirement in Zone 6 from Interstate 95 wherein no vegetative growth is to be cut or altered.

SECTION XIX. Separability.

If any section, subsection, or clause of this ordinance shall be deemed to be unconstitutional or otherwise invalid, the validity of the remaining sections, subsections, and clauses shall not be affected thereby.

SECTION XX. Conflicting Ordinances Repealed.

All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

SECTION XXI Effective Date.

This ordinance shall be enforced from and after April 1, 1991.

**Article 22:** To see if the Town will vote to amend Chapter 254 of the Code of the Town of Seabrook - Waste Disposal Ordinance by adding the following sections pertaining to a curbside recycling program:

**Section 1 - Purpose and Intent**

The purpose and intent of this ordinance is to provide the town with a curbside recycling program for residences, mobile home parks, apartments, and commercial establishments whose rubbish is picked up by the town. This ordinance shall also apply to commercial apartments and mobile-home parks. Participants will separate recyclables from their regular waste and will place the recyclable materials in a separate container, to be furnished by the town, at the curbside to be picked up the same day as regular waste.

**Section 2 - Definitions:**

**Waste Generators**

A) Single generators - Those single residences, apartments and commercial establishments whose rubbish is picked up by the town.

B) Bulk Generators - Those residential and commercial establishments which deliver their rubbish to the town transfer station. This shall also include establishments that use the services of private waste haulers that do not use the transfer station.

### Recyclables

- C) Aluminum - Shall mean empty, rinsed aluminum containers of a size of one (1) quart or smaller (soda and beer cans). Labels do not have to be removed.
- D) Glass - Shall mean whole, empty, rinsed glass containers (green, brown, and clear) without lids, caps or stoppers. Labels do not have to be removed. (No ceramics, plates, window glass, light bulbs, etc.)
- E) Plastics (HDPE & PET) - HDPE shall mean empty, rinsed plastic containers without lids, caps, and stoppers, such as milk and water jugs. PET shall mean soda bottles and non-food plastic containers such as laundry detergent bottles and dishwasher bottles. Labels do not have to be removed.
- F) Newspaper - Shall mean newspapers without magazines or colored inserts.

### **Section 3 - Separation of Recyclables**

- A) Single generators shall separate recyclables from their regular waste by placing them in a container provided by the town, and placed at the street curb or curb-line for the collection by the town or its designated agent.
- B) Aluminum cans, glass, and plastic containers shall be placed in a separate container to be furnished by the town. Newspaper should be bundled and placed next to and/or on top of the recycling container.
- C) Bulk generators shall separate their recyclables from other rubbish or waste.
- D) Should the town's recycling program become mandatory under section 5C, then the town may refuse to pick up the rubbish of single generators who do not separate the recyclables.

### **Section 4 - Recycling Containers**

- A) The Town of Seabrook shall provide all single generators with one container for recyclables. The town shall also provide one container per unit to commercial mobile-home parks and apartments.
- B) Title to the containers shall remain in the Town of Seabrook. The town will replace all containers without charge for those which become unusable due to container defect or normal wear and tear, however single generators shall pay a replacement fee for containers lost or destroyed before new containers are issued to them.
- C) Commercial generators having more than five (5) employees shall receive up to three (3) containers without charge. Any additional container required will cost the commercial generators what the town is charged.

### **Section 5 - Voluntary/Mandatory Provisions**

- A) Recycling as herein defined shall be voluntary for the first 12 months from the start of the program.
- B) Annually, thirty days prior to the anniversary date, the board of selectmen shall determine if the voluntary aspect of this ordinance has been complied with to the extent that 80% of the town is participating

in said program in which event the voluntary aspect hereof shall continue.

C) If the board of selectmen shall determine that there has been less than 80% of said compliance, then this ordinance shall become mandatory. Notice of such determination shall be published in a local newspaper.

**Section 6 - Unauthorized Collection of Recyclables**

A) Other than the town's authorized recycling collector, all others are prohibited from removing recyclables from any user collection location.

**Section 7 - Selectmen's Authority for Regulations**

A) The board of selectmen is hereby authorized under RSA 31:39 and RSA 149M to promulgate all such rules and regulations as are necessary to implement this ordinance.

**Section 8 - Penalties**

A) Any person, firm or corporation being convicted of violating any provision of this ordinance upon the same becoming mandatory, shall receive a written warning for the first violation, be fined \$100.00 for the second violation, \$200.00 for the third violation, and \$300.00 for each subsequent violation thereafter.

**Section 9 - Inconsistency**

A) All ordinances or parts of ordinances adopted by the town which are inconsistent herewith are hereby repealed as to such inconsistency.

**Section 10 - Severability**

A) The invalidity of any provision of this ordinance shall not affect the validity of any other provision nor the validity of the ordinance as a whole.

**Section 11 - Effective Date**

A) This ordinance shall take effect immediately upon passage.

Motion by James S. Eaton, second by Bruce G. Brown, to adjourn this Town Meeting sine die.

Meeting adjourned at 10:30PM.

## BOARD OF SELECTMEN/TOWN MANAGER - 1991 REPORT

We are pleased to be able to provide you with the following report summarizing the events and activities of 1991.

Our community continues to experience growth and development when many communities around us are suffering from a deep recession. 1991 was no different from previous years in the level of activity that occurred inside and outside your local government.

In January, the budget committee was presented with a proposal for the 1991 warrant calling for an aggressive financing plan for the sewer project. The committee was asked to recommend two appropriations for the project that would provide the town with sufficient funding to begin construction after federal permits had been issued. The committee was asked to approve a nine million dollar appropriation and to recommend authorizing a bond issue up to twenty-eight million dollars. After substantial discussion on the delays in the project and hearing the overall financing plan, the committee approved the request to be submitted to the voters in March.

In February, a number of public hearings were held on matters facing the town. The sewer project faced its first public hearing before the Army Corp of Engineers. The meeting was well attended by those who had concern about the location of the treatment plant and the proposed distance of the ocean outfall pipe. No action was taken by the Army Corp but the town was directed to respond to the technical concerns presented at the hearing.

A public hearing was also held in February on a proposed zoning change to regulate adult businesses and adult materials. The hearing was conducted at the community center and was held to apprise citizens of the comprehensive zoning proposal that was petitioned for the March warrant. The planning board also held a hearing on this matter, as well as for other zoning amendments which included a proposed wetlands ordinance.

The March annual meeting had a higher attendance level than years past. The state of the economy may have been one reason for the turnout, but the size and content of the warrant may have been the true reason. The town meeting approved the sewer requests. Authorization was given to issue up to twenty-eight million dollars in bonds to help finance the project, which was part of that approval. All told voters approved a warrant of 45,346,339 dollars for 1991.

The March warrant asked voters to determine whether they wanted a 40 unit elderly housing project. The housing authority, an entity created by the voters at the 1983 town meeting, presented a comprehensive plan to build the complex on a parcel of land on Railroad Avenue. The meeting was asked to appropriate 1.7 million dollars to construct the project, which would open by the years end. The meeting approved the request and true to its word, the housing authority had an open house in December.

The summer heat did not slow the activity in town. The Yankee Fisherman's Cooperative saw the fruits of their labor become reality when the Co-op took over the new fish facility, built by New Hampshire Yankee, in June. After months of negotiations on a five year lease between the Department of Resources and Economic Development - the owner of the facility, the town, and the Co-op, a grand opening was held on June 20, 1991, to officially transfer the management of the facility to our local fishermen. Though still the goal of the fishermen and the town to have the facility turned over to the town, the terms of the lease will provide the Co-op with the stability they need to make the project viable in a stagnant economy.

Mother natures fury created the greatest level of activity in the fall. The Atlantic Coast was hit by Hurricane Bob on August 19, 1991. The storm required the full response of the town's emergency workers and volunteers. Their immediate response and dedication through the storm helped to avoid harm to the public and limit the amount of damage to public and private property.

No sooner had our highway crew cleared the debris from Hurricane Bob when the town was hit by another tropical storm. The storm caused damage to a number of beach front homes, but damage to public property was minimal. To avoid future damage and to protect the beach, the town will be looking to restore the dunes that act as a natural barrier against flooding.

The tax rate was set just before Thanksgiving, and tax bills were sent out in early December. Many property owners saw a reduction in assessed value of their homes because of the slumping real estate market, but saw an overall increase in their tax bill due to a significant increase in the tax rate. Home values were adjusted due to the second year's use of a computer appraisal system in the assessing department, but the town meeting appropriations caused a doubling of the tax rate. The rate increase was due primarily to the financing of the sewer project. In 1992 a stabilization of the rate should occur now that the sewer cost is built into the tax rate.

In reviewing the events of 1991, it would not be appropriate to close this report without commenting briefly on a number of events that happened outside the border of our community. In January - Seabrook, our nation, and the world, were faced with an armed conflict in Iraq. A number of our residents, including two members of our police force, were called to serve our country in this hour of need. Indeed our own town government could not function as a democracy without the brave courage of the men and women who served in our armed forces. A deep hearted thank you goes out to those from Seabrook and our nation who served us well in desert storm.

The other significant event that captivated the world as an audience was the fall of the Soviet Union and the end of communism as an organized threat. The world is still watching to see how Russia and the independent states will embrace democracy, but the United States is now the world symbol of what can be born of a government by the people, for the people.

To this end, this board encourages your participation in Seabrook's government. This can be accomplished by serving as a volunteer on many committees which town government has, or attending meetings and voicing your input on how you would like to see us function. The office of the selectmen and town manager is here to serve you. Please let us know how we can improve our service.

Respectfully submitted,

Board of Selectmen

## ASSESSING DEPARTMENT

Mr. Lee Dennett the Town Appraiser retired August 1991 from the town. Mr. Robert F. Quinn was hired as the new appraiser in October 1991. Suzanne Griggs, appraiser clerk was transferred to the Finance Department as the new Deputy Treasurer in November 1991.

Now that the New Hampshire Yankee Nuclear Power Plant has been constructed and is "On Line", it is hopeful that the valuation fluctuations of the past will now stabilize. The complete and operational state of the Seabrook Station "Good News" and "Bad News" for the town. The "Good News" is that the plant carries a high valuation which is a great benefit in reducing taxpayers burdens. The "Bad News" is that there will not be the large amounts of valuation inputs that there were in the past. In all likelihood, the plant valuation will tend to stabilize at it's valuation and perhaps even begin to decline as time passes.

New Hampshire Assessment Law Requires that "All Property be Appraised at it's full and true value in money" (Market Value). So, we will be up-dating to Market Value each year and the benefit should be that the property valuations will be much less variable. Prior to the advent of computerization, this was a practical impossibility. But today, this is no longer the case.

The project of up-dating the town maps, will be coordinated in two phases:

Phase 1: Fill in the up-dating to produce a current working set for office use.

Phase 2: Long range up-dating with research and redrafting.

Respectfully submitted,  
Robert F. Quinn  
Town Appraiser

## BUILDING DEPARTMENT

1991 has been a very busy year in the Building Department. Despite the slow economic times there was a 38% increase in Building Permits over 1990.

Commercial growth has led this increase with two large Shopping Centers and a new market at the corner of Rte.1 and 107.

The Elderly Housing Project has been completed and is now occupied.

## HEALTH DEPARTMENT REPORT

This year more testing of the rivers and streams was conducted by the Health Department. The results showed continued high coliform counts, which indicate the pollution problem is still with us.

The town has appealed the New Hampshire Wetlands Board's ruling against extending the sewer pipe to Cross Beach Road.

Dye tests are being conducted by the Health Department with the help of New Hampshire Public Health to show the need for the sewer to be extended to Cross Beach Road.

### STREET LIGHT COMMITTEE

The Street Light Committee has made various trips around town checking the street lights. This year we have found very few lights needing to be replaced. We made several trips comparing the print out from the electric company against the location of the numbered poles with lights installed on them. All pole numbers corresponded with the print out list.

It has been a pleasure serving the town in this capacity and hope we can continue to serve the town efficiently in the coming year.

## RECYCLING STUDY REPORT - 1991

The recycling committee had a number of changes in 1991. The committee continued to meet the first Monday of the month but with different faces. Due to other constraints, committee members Paul Kelley and Patricia O'Keefe resigned over the summer. They had served the committee well, and we thank them for their time and effort. Replacing Paul and Trish were Donna Smith and Richard Keefe. They have allowed the committee to have a full compliment of members and to continue our efforts.

In 1991 the recycling study committee proposed two articles for the town meeting warrant. The first article was a proposed ordinance to regulate a voluntary curbside recycling program. The second article asked the town meeting to raise the necessary funds to begin the program. The good news was the voters adopted the recycling ordinance. The bad news was the voters did not approve the funding for the program.

In 1992 the committee will again make a request to fund a recycling program in Seabrook. If approved, the committee will work closely with the board of selectmen to implement a program by the fall of 1992. The program will eventually reduce costs the town is paying to the Haverhill, Massachusetts burn facility. It will also bring us in line with other communities that have adopted similar programs.

## POLLUTION CONTROL REPORT - 1991

Construction on the proposed town-wide sewage system had been scheduled to begin in 1991. This did not occur because the town is still experiencing delays in obtaining the necessary federal permits for the project. In order for the project to proceed as planned the town must obtain two separate permits from two federal agencies. In order to begin construction, a 404 permit from the Army Corp of Engineers must be issued. This permit regulates construction projects in wetlands. The proposed treatment plant on Wright's Island and the sewer mains that will be laid primarily along town rights-of-way will disturb a minimal amount of wetlands, thus the need for the permit. The Army Corp is charged with the responsibility of ensuring that the least amount of wetlands be disturbed as possible and that alternatives be evaluated.

To this end, most of 1991 was spent reviewing the town's permit application and holding public hearings on the request. In February, the Army Corp scheduled its first hearing which was well attended. It was held at the Winnacunnet High School in Hampton, New Hampshire. The location of the hearing was determined by the Army Corp and was chosen because it was neutral ground. The public comment period was open through early March and when it closed the town expected it would receive a decision within sixty days. Unfortunately, we were advised in early June that a second hearing would be held in August in order to allow for comment from seasonal residents of Seabrook and Salisbury. The second hearing was held at the City Hall in Newburyport, Massachusetts. Again, the site was selected for its neutrality. As of January, 1992, the Army Corp has not acted on the town's application.

The other federal agency having jurisdiction over the project is the Environmental Protection Agency. This agency regulates the quality of the wastewater that will be discharged. The NPDES permit, short for National Pollution Discharge Elimination Systems permit, will set limits on the quality of water the treatment plant will produce that can be discharged into the ocean.

The proposed wastewater treatment plant is a 1.8 million gallon per day plant using secondary wastewater treatment technology to meet the limits set forth by the EPA. Like the Army Corp permit, the NPDES permit process has taken longer than expected. The EPA did not issue the draft permit until September and public hearings on the draft permit were not held until mid-October. To date, the EPA has not issued a final NPDES permit. This cannot occur until a consistency review statement is issued by

the Massachusetts Coastal Zone Management Agency. As a condition of the draft permit issued by the EPA, this agency must certify that water quality standards in Massachusetts will not be negatively impacted by the effluent from the outfall. A similar statement was required by New Hampshire which has been obtained. We are hopeful that this will be issued by March 1, 1992. If this does occur, this will clear the way for action on the town's application by the federal agencies.

The financing of the project is the last item to be resolved. The voters at the 1991 annual town meeting approved two articles that would have allowed the town to begin construction on the project in 1991 had permits been issued. Article 10 was approved to raise nine million dollars and Article 9 authorized the selectmen to issue up to twenty-eight million dollars in general obligation bonds if/and when cash flow demands required it. The increase in the tax rate is primarily due to the financing of the sewer project but voters have shown they are committed to its construction. In 1992 and for three more years an appropriation request will be made of the voters in order to raise the projected 49.1 million dollars to construct the project. Thereafter, a reduced tax rate should occur if no other project of this size is undertaken.

The pollution control study committee, the board of selectmen and town manager are continuing to work hard to make this project a reality. The committee meets regularly on the third Wednesday of each month at 3:30 p.m. in the selectmen's meeting room. With perseverance and a little luck, 1992 will be the year we break ground on this project.

SEABROOK BEACH VILLAGE DISTRICT  
ANNUAL REPORT

The Seabrook Beach Village District held its annual meeting on Tuesday, April 30, 1991 in the Warren West Memorial Building on Route 1A.

As a result of this meeting, the following officers were elected:

Patricia O'Keefe	Commissioner for 3 years
Ann O'Sullivan	Clerk for 1 year
John Lannon	Treasurer for 1 year
Edward Maguire	Moderator for 1 year

At the annual meeting the voters of the District voted to amend several sections and definitions of the District Zoning Ordinance. The complete revised District Zoning Ordinance is kept on file at the Warren West Memorial Building. The Village District Building Inspector also maintains a copy.

Regretfully, during the course of the year, the Commissioners accepted the resignations of its Building Inspector Mr. Louis Janos and Patricia O'Keefe as Commissioner. Both resignations were submitted for personal reasons.

Mr. Charles Kaslow was appointed as the interim Building Inspector and Mr. Warren Crawford was appointed to fill the balance of the vacated Commissioners term of office.

The Commissioners would like to extend their thanks for the on-going support the Beach area has received from the Town Departments, most notably the Police, Fire and Highway Departments.

Once again, we look forward to working with the people of Seabrook helping to keep the Beach District a place all residents can enjoy for many years to come.

The Beach Commissioners meet on the second Wednesday of each month at 7:00 p.m.

At last year's town meeting, the people of Seabrook voted to raise the sum of \$1,700,000 (one million seven hundred thousand dollars) as requested by the housing authority to build 40 units of elderly housing.

The Authority hired Architects Four and Pro Con to design and build the project for a guaranteed maximum price of \$1,7000.000. Immediately following town meeting Pro Con filed for all necessary permits. By summer, work was underway and ground-breaking ceremonies were held on July 20th.

The Authority took a hands-on approach to the project by hiring Tracy Dow as Clerk of the Works. Tracy kept a trained eye on the project. We made daily visits to the site to discuss construction progress with him and also met with Pro Con twice a week. It was a very busy summer and fall trying to keep up with the building schedule and on-going problems.

In August we ran a contest to name our new building. Over 40 entries were submitted. Mrs. Shirley Flanagan was the winner with her entry of "Seabreeze Village."

On December 15th, the building was close enough to completion to hold an open house. It was viewed and well-received by over 600 townspeople. As of January 27, 1992, 22 tenants have moved in and the rest are being processed.

The Authority would like to take this opportunity to thank our two secretaries, Lydia Gould and Karen Anderson for their efforts. We would also like to thank the following town officials for their cooperation: Selectmen Asa Knowles, Elizabeth Thibodeau and Ivan Eaton; Town Manager Steven Clark; Water Superintendent Warner Knowles; Road Agent Vernon Dow; and Fire Chief Jerry Brown. A special thanks to Tracy Dow for keeping the Authority well-informed during all phases of construction. Last, but not least, we would like to thank the people of Seabrook for funding elderly housing. The Authority worked long and hard to produce a building that the town can be proud of. We believe we have accomplished our mission.

Nineteen-ninety-one was a year full of extremely intense activity and planning - for the future of Brown Library. A Library Building Study Committee was appointed to help share the burden of this most daunting of responsibilities. With funds voted at last year's Town Meeting, Aaron Cohen Associates, library building consultants, were hired to perform a Needs Assessment and to write a Building Program for a new library. These tasks have been accomplished. The proposed new site - behind the Police Station - has been examined by soil engineers and found to be most acceptable to build upon. Brown Library is ready to e-x-p-a-n-d.

And does it need enlargement and technological updating? Absolutely! By anyone's measure it is far too small and too far behind the times. Originally built almost one hundred years ago (only 30 years after the U.S. Civil War), it has changed physically very little since then, since Grover Cleveland was the President of the U.S., since horses ruled the roads. Henry Ford made his first automobile AFTER the Brown Library was built! Radium was discovered AFTER the Brown Library was built! The Brown Library was built BEFORE TV, and movies of course, even BEFORE radio! The Library desperately needs updating.

Despite having to operate under the severe handicap of woefully inadequate space and despite all the time and energy that had to be diverted towards the expansion project, the Library still managed to fulfill its stated role and exceeded its operational goals for yet another year.

Statistically, the Library is outperforming every expectation ever made of it. Patronage amounted to 15,961 persons - including book drop visits this figure jumps to 18,013 - an increase over 1990 of 17%. Since the Library began counting patrons in 1985, the increase has been 107%. Circulation in 1991 totaled 24,038 items, an increase over last year of 15%. Circulation has seen a 15-year rise of a whopping 743%!

The number of registered library patrons stands at 2,662, with 460 new people having been registered last year alone. The current registration system has been in place since mid-1987.

The Friends of Brown Library's membership numbers 83. The Library's participation at Seabrook Old Home Days was handled this year by the Friends; their "Fishing Booth" proved most successful. The Friends generously sponsored two summer programs for the Children's Room which were enjoyed by all attendees.

The Children's Room had an outstanding 1991. One hundred and sixty-two programs were held, with a combined attendance of 1,741. These figures reflect a five year increase of 21% and 24% respectively. All in all, the younger Library patrons were again very well served.

New to the Library's adult collection this year is the addition of books-on-tape. These are regular audio cassettes upon which unabridged books are recorded. Useful for commuters, travelers, and those with sight impairment, they have been very popular.

Now poised on the brink of greatness, the Library yet remains fully functioning and willing and able to aid the community in its quest for education, culture, entertainment and information. Do come to the Library - come soon and come often - it's your Library. Hours are: Monday, Wednesday, Friday from 12:00 (noon) to 8:00 PM; Tuesday, Thursday from 10:00 AM to 6:00 PM; and Saturday from 9:00 AM to 1:00 PM. (Note that the Library is closed on Saturdays during July and August.) Call 603-474-2044 with any questions or to inquire about home delivery.

You are hereby notified to meet in the auditorium of the Seabrook Community Center, U.S. Route 1 (Lafayette Road), on Tuesday, March 10, 1992, at 10:00 o'clock in the forenoon and to cast ballots until at least 7:00 o'clock in the evening of the same day, and to meet in the auditorium of the Seabrook Community Center, U.S. Route 1 (Lafayette Road), on Thursday, March 12, 1992, at 7:00 o'clock in the evening to act on the articles below.

Further, you are hereby notified that the moderator will process the absentee ballots at 1:00 o'clock in the afternoon on Tuesday, March 10, 1992, pursuant to RSA 659-49.

**Article 1:** To elect by non-partisan ballot: one (1) Selectman and Assessor for a term of three (3) years; one (1) Trustee of the Trust Funds for a term of three (3) years; one (1) Road Agent for a term of three (3) years; one (1) Fire Chief for a term of three (3) years; three (3) Constables for a term of one (1) year; two (2) members of the Planning Board for a term of three (3) years; two (2) members of the Budget Committee for a term of three (3) years; one (1) member of the Budget Committee for a term of two (2) years; one (1) Park Commissioner for a term of three (3) years; one (1) Trustee of the Library for a term of three (3) years; one (1) Supervisor of Check-list for a term of six (6) years; one (1) Moderator for a term of two (2) years.

(On the Official Ballot)

**Article 2:** Do you favor the continuation of the town manager plan as now in force in this town?

(On the Official Ballot)

**Article 3:** Are you in favor of the adoption of the amendment to the existing zoning ordinance as proposed by the planning board which creates a wetland overlay district as follows?

## **ARTICLE X - Wetland Overlay District**

**SECTION 263-65 - Purpose:** In the interest of wise land use and the public's health, safety, convenience, and welfare, the purpose of this article is:

- to encourage those land uses that can be appropriately and safely located in wetland areas;
- to protect wildlife habitat;
- to prevent the pollution of surface waters and groundwater;
- to prevent the destruction of wetlands which provide flood protection and storm water storage, recharge of groundwater supply, and augmentation of stream flow during dry periods;
- to prevent inharmonious use of wetlands which would cause excessive or untimely expenses to the Town.

**SECTION 263-66 - Wetlands Defined:** Wetlands are those areas having Poorly Drained Soils or Very Poorly Drained Soils, as designated by the National Cooperative Soil Survey conducted by the Soil Conservation Service, USDA.

**SECTION 263-67 - District Boundaries:** The Wetland Overlay District encompasses all Poorly Drained Soils and Very Poorly Drained Soils in the Town of Seabrook. In all cases where the requirements of this article are inconsistent with the requirements of another zoning district, the district regulations which are the more restrictive shall apply.

**SECTION 263-68 - Wetlands Delineated:** Wetland areas shall be identified by a High Intensity Soil Survey conducted by Soil Scientist who is certified by the State of New Hampshire.

**SECTION 263-69 - Permitted Uses on Poorly Drained Soils:** The following uses are permitted on Poorly Drained Soils:

- A - Forestry,** tree farming & agriculture;
- B - Wildlife habitat** development and management;

**C - Parks and recreation uses** that are consistent with the purposes of this article.

**D - Conservation areas and nature trails;**

**E - Driveways** serving single-family and two-family dwellings;

**F - Single-Family and Two-Family Dwellings,** and accessory buildings such as garages and tool sheds.

**SECTION 263-70 - Permitted Uses on Very Poorly Drained Soils:** All uses detailed above in Section 263-69 A thru E are permitted on Very Poorly Drained Soils.

**SECTION 263-71 - Prohibited Uses:** All uses that are not specifically permitted in Sections 263-69 & 263-70 above are prohibited. Prohibited uses include multi-family dwellings, commercial development, and industrial development.

**SECTION 263-72 - Roadways:** No roadway shall be constructed over wetlands until a Conditional Use Permit for same is obtained from the Seabrook Planning Board. The Planning Board shall grant such a permit only upon finding that all of the following conditions are met:

**A - The proposed construction is essential** to the productive use of non-wetland areas;

**B - No alternative route is available,** i.e. alternative routes that would have a less detrimental impact on wetlands;

**C - Permits from the NH Wetlands Board and the U.S. Army Corps of Engineers** are submitted to the Planning Board, or evidence that such permits are not required.

**SECTION 263-73 - Adequate erosion control measures** shall be maintained before, during, and after construction. The Seabrook Planning Board shall determine which measures are to be considered adequate on a given site.

(Recommended by the Planning Board)  
(On the Official Ballot)

**Article 4:** To see if the town will vote to authorize the board of selectmen to borrow money in anticipation of taxes and to renew and refund town notes.

**Article 5:** To see if the town will vote to authorize the board of selectmen to apply for, accept and expend, without further action by the town meeting, money from the state, federal or other governmental unit or a private source which becomes available during the fiscal year in accordance with the procedures set forth in RSA 31:95-b.

**Article 6:** To see if the town will vote to authorize the board of selectmen to sell at public auction or by advertised sealed bids such town property as is no longer used by the town.

**Article 7:** To see if the town will vote, pursuant to authority under RSA 80:42-a, to retain and hold all real property located within the marshlands and to authorize the board of selectmen to sell all other tax title property, in the first instance to former owners of the property, or the grandparents, parents, children, and spouses of said former owner, for a sum not less than the outstanding taxes owed plus accrued interest to the date of tax deed; or failing such sale, then by advertised sealed bids or public auction, at the discretion of the board of selectmen.

**Article 8:** To see if the town will vote to discontinue the Municipal Capital Reserve Sewer Fund (\$6,464,898.59), the Municipal Capital Reserve Building Fund (\$2,563,957.78), and the Municipal Capital Reserve Motor Vehicle Fund (\$809,252.45). Said funds, with accumulated interest to date of withdrawal, are to be transferred to the town's general fund.

(Recommended by the Budget Committee)

**Article 9:** To see if the town will vote to raise and appropriate the sum of Seventeen Million Two Hundred Fifty Thousand (\$17,250,000.00) Dollars for the purpose of paying the judgements against the town in tax abatement actions for the years 1983-1986 by the owners of the Seabrook Nuclear Generating Facility, and to authorize the use/transfer of the fund balance in the amount of Seventeen Million Two Hundred Fifty Thousand (\$17,250,000.00) Dollars for this purpose and to authorize

the selectmen to take all necessary action to carry out said payment.

(Recommended by the Budget Committee)

*The members of the Seabrook Recreation Commission are: Vernon Small, Chairman; William Moore, Jr., Vice Chairman; Charlotte Dow, Secretary; Rosemary Eaton, Parks Department; Asa Knowles, Selectmen; Elliot Eaton and Salvatore Rubera. The administrative staff of the Seabrook Recreation Department are Sandra Beaudoin, Director of Recreation and Edward Pickard, Assistant Director.*

The Recreation Commission and Staff continue to provide many of the favorite established programs and leisure services for Seabrook residents of all ages. Even though the department was subject to budget cuts again in 1991, the Recreation & Center staff and volunteers again managed to provide most of the successful and popular activities. Some programs were rearranged in 1991 to better serve the preschool and senior citizen age groups. A few instructors were added through contracted services to help us provide pee-wee creative works for the preschool age and Knitting, Quick Quilting, Counted Cross Stitch and Photography for the more mature participant. New special events included the Super Kid Challenge, Hayrides, trips to the Red Sox, Disney and others. The variety and number of programs are displayed further within this report.

Projects for the year of 1991 included purchasing some new equipment for the Center's exercise room, such as a free weight bench press and squat rack station, two ceiling fans and more exercise posters to guide the users. Another project included purchasing portable staging for the Center's gymnasium to be used for pageants and special events. In addition, you will find a built-in trophy case in the lobby of the Community Center, as we grew out of the original small case now being used for craft displays. Much of our energies are put into attempts to improve our services and programs constantly.

The following indicates the *DAILY AVERAGE* of people using the Seabrook Community Center during the four sessions of programs offered by the Recreation Department.

### SEACOAST COCA-COLA IN 1991

Seacoast Coca-Cola Bottling Co. continues to support a number of our youth & adult programs saving the tax payers money. During 1991, the company provided beverage products, Cola Water Bottles and \$1,500 in sponsorships. The programs which were supported included film for photos with Santa, uniforms for the Teen basketball team, Women's Softball, uniforms T-Shirts for the Youth basketball league, and donation for the Miss Seabrook Contest.

### 1991 SEABROOK OLD HOME DAYS

The 1991 Seabrook Old Homes Days were again a success and filled with entertainment and fun. The 11th annual Miss Seabrook Contest opened the Old Home Days on Thursday, August 15th where over two hundred and fifty people witnessed Kathleen Smith being crowned as the 1991 Miss Seabrook. On the following night Corri Eaton was crowned Jr. Miss Seabrook. On Saturday, August 17th over 20 local non-profit groups, town departments and others provided food, crafts, contests, entertainment and more. Included in the day were: field races, diaper derby, egg throw, hula-hoop, arm wrestling, best home made pie, musket shoot, pie eating, doll carriage parade, decorated tricycle, corn husking, horseshoes, cribbage, bingo, softball tournament, cow chip sweepstakes, Monte Carlo, pee-wee races, skillet throw, a variety of entertainment, fireworks and more. On Sunday, the Seabrook Lions club held a Turkey shoot as an Old Home Days event.

In conclusion, the commission and department staff, extends a special thanks to all those who helped to maintain and carry-out the variety of programs which were offered during 1991.

ZONING BOARD OF ADJUSTMENT - 1991

The Zoning Board of Adjustment this past year has heard twelve cases. Much of the Board's time has been on hearings on the gravel pit license and excavation; and on the "new sign ordinance."

As you may be aware of, all land board members, by law - serve without compensation. The Zoning Board of Adjustment members again attended the law lecture series at Philips Exeter Academy and special work shops sponsored by the New Hampshire Municipal Association, of which Seabrook is a member.

Through the New Hampshire Municipal Association, the legal staff in Concord and law lecture series, members of your ZBA are kept current on latest changes in the law and supreme court cases, which enable our members in arriving at wise "quasi judicial decisions."

Respectfully submitted,

James C. Falconer, Chairman

## CITIZENS PETITION ADVISORY COMMITTEE REPORT - 1991

The Citizens Petition Advisory Committee again this year has been active in advising and preparing various petitions.

The Seabrook Home Rule Charter is unique in this respect. No other town or city in New Hampshire has this provision to assist its citizens to have warrant articles for the annual town meetings.

The Advisory Committee may draw on various legal sources to determine the legality of an article, there by avoiding the frustration a person feels - by not either being able to properly draft an article or to have it in proper legal form, and therefore, having it thrown out for that reason.

A reminder to citizens: All petitions must be submitted to the selectmen on various dates for the town warrant. Information in regards to certain dates that petitions must be submitted by, can be acquired at the town office. There are other petitions for State of New Hampshire ballot questions - with other required date submissions.

Once again, it is with pleasure that we submit this report.

Respectfully submitted,

Bruce G. Brown, Chairman  
James C. Falconer, Clerk  
Eric N. Small, Member

## ROAD AGENT'S REPORT - 1991

At the beginning of the year time was spent in cutting brush along sides of town roads.

During the year time was spent in hauling gravel, loam, cold patch, salt. Also mixing salt and sand.

Drainage was installed on Ledge Road, Perkins Avenue and River Street. The beach rake was used at least once a week to clean the seashore.

Maintenance and repairs were done on the vehicles.

The highway department helped the parks department on the baseball diamond.

The float at River Street was worked on. There are plans to fix the pier at River Street, as of this time it is held up by the wetlands board.

Clean-up weeks were scheduled in the summer and then again in the fall. Work was done on Walton Road extension.

Signs were installed on Old New Zealand Road and at the beach. The grass along the sides of the roads was mowed. The work was done in the cemeteries.

The low-bed was loaned to the desert storm committee and won first prize. Hurricane "Bob" caused extra work, especially at the beach. The parks department and mosquito control employees helped us out during the storm.

The highway department helped the water department at the Wal-Mart complex.

Respectfully submitted,

Vernon G. Dow, Road Agent

#### Emergency Management

The year 1991 was very active for Emergency Management. A new Radiological Emergency Response back up radio was installed at the Police Station. This office also purchased three cellular telephones. Two were installed in the ambulances to back up the radio service and will enhance the service in this area. The other telephone was installed in my vehicle. This will act as a Command Post Vehicle during any incidents that might arise, or if the phone service is disrupted. The phone can also be removed and placed at the Emergency Operating Center, the Police Station, or any location where it may be needed.

There were several Hazardous Material Incidents during the year, none of which posed any threats to the public.

Several local Companies have been involved in public awareness and planning for Community Safety and Health. They have donated their professional services and knowledge during any type of Hazardous Material Incident.

Two major storms this year resulted in the Governor issuing Disaster Declarations for the Seacoast area. The Recreation Center which is utilized as a shelter was opened several times due to emergencies. This office worked closely with the Federal Emergency Management Agency. All necessary paperwork has been filed with this agency to recoup expended funds due to the town as a result of the storms.

Several training exercises were conducted this year with many of the emergency responders in attendance. There will be additional on going training sessions for all town departments.

The town Dive Team was activated several times this year for search, recovery, and rescue missions. The Team also trains from time to time during the year.

Special needs people who need information or would like to fill out or update the survey forms should call this office at 474-5772.

Again, I would like to thank the Board of Selectmen, Town Manager, Fire Chief, Police Chief, Water Superintendent, Road Agent, and all of the emergency responders and volunteers that assisted in making this office of our town government a success.

Respectfully Submitted,

Norman L. Brown

Emergency Management Director

#### Fire Department - Annual Report 1991

The past year has been extremely busy for your Fire Department. The sudden growth spurt the town is experiencing with the addition of a major shopping center, other business complexes on both sides of I-95, and the elderly housing project, necessitated constant monitoring to ensure compliance with all fire and safety codes.

Career level training is still on going. Two firefighters are also enrolled in fire science courses at U.N.H.

During the year fire safety education classes were conducted for residents at Staples and Stoneybrook Mobile Home Parks. We will be conducting additional classes when residents move into Seabreeze Village - the Elderly Housing Complex.

The latest in protective clothing for all the firefighters has been purchased and issued. We purchased thirty seven Astro suits made of P.B.I./Kevlar, a fire resistant material that was recommended by N.F.P.A. 1500.

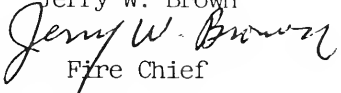

Last year town meeting appropriated money for a new vehicle for the Fire Chief. After a lengthy bidding process a 1991 Ford Explorer arrived in August. This vehicle should serve the town for many years.

The Fire Mechanic and crew have rebuilt the 1974 forestry truck; this will give us a few more years of extended use.

The Fire Department received considerable amount of support from the public throughout the year. Ed Cerasi of Circle Motors donated two vehicles for our auto extrication training course that we conducted this past summer. Oliver Carter and family of Carter's Priority Printing, donated a new supply of updated fire box numbers. Residents wanting a new card may pick them up at the Fire Station.

Again this year my personal thanks to all firefighters at the Fire Department, all the other town departments, and the surrounding towns, for their continued support and most important the support of you the townspeople.

Respectfully Submitted,

Jerry W. Brown  
  
Fire Chief

#### Fire Department Fire Prevention Office

The Fire Prevention Office has been very busy this year. With all the new construction taking place in town it has required a great deal of our time. Several of these projects are still going on at the time of this report.

The Fire Prevention Officers would like to thank all the town departments that assisted us with information and in other ways on these projects.

This Office issued the following permits and conducted the following inspections during 1991:

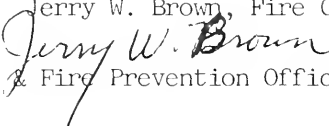

Business Permits	378
Permits to sell fireworks	15
Oil Burner Permits	17
Blasting Permits	3
Fire Alarm Connections	18
Business Inspections	58

**WELFARE AGENT'S REPORT - 1991**

Once again, my annual report to you the taxpayers and citizens for this past year of 1991 reflects on over-draft in welfare budgets; as of the closing of the fiscal 1991 annual town report books, the welfare budget is in the red by \$11,726.

Of all the monies paid out, \$4,280.37 has been paid back to the town's general fund. However, in the present economic predicament, the possibility of the town recovering monies "loaned" out on welfare is steadily becoming less and less.

The economy is in shambles, and particularly so in New Hampshire. Seabrook has an estimated 15% plus unemployment factor and is still rising. All indications are that the future portends more fiscal crisis for our citizens.

I must reiterate that because of federal and state cut backs in various entitlement and public assistance monies, the burden per force is falling on local government and its tax payers - to meet the needs of our indigent citizens.

Respectfully submitted,

James C. Falconer  
Welfare Agent

## REPORT OF THE POLICE CHIEF

We, members of the police department, thank the residents of Seabrook for their passage of Article 33 in the Town Warrant for 1991. The successful passage of this article gave us the permission, with the funds, to purchase 9MM pistols and appropriate gear. The department immediately went ahead for sealed bids and was able to purchase the Sig Sauer P228 assembled in Exeter, New Hampshire. We consider this the very best pistol manufactured. With the purchase of the pistols and leather gear Sergeant Patrick Manthorn, the department armorer, conducted an interesting and informative transition training. Every member successfully passed and has been issued appropriate gear and pistol. Again, thank you residents.

The past year we had two promotions within the department. Patrol Sergeant David Currier was promoted to Lieutenant. He has assumed the second in command of the department and is doing a commendable job in his present position as he did as patrol sergeant. If any resident has a concern that cannot be answered by the on duty personnel, Lieutenant Currier will be available to assist. Patrolman, Youth Services Officer Michael Frost was appointed as Patrol Sergeant. He assumes command of a patrol shift. Sergeant Frost will also be the Crime Prevention Officer. In the past we had this crime prevention program and we are now reinstituting it because of concerns of the residents and businesses. Any person, groups or businesses that are interested in a crime prevention check of their residence or business or would like a program presented about prevention please contact Sergeant Frost. We would like to thank Sergeant Frost for his years as the Juvenile Officer and especially his dedication to the Drug Abuse Resistance Education [D.A.R.E.] program that he taught in the school. Officer James Deshaies was transferred to the Youth Services Bureau. We wish him luck.

The future looks promising for the department especially with an outside group coming to do a study of the various aspects of Law Enforcement in the community. We are hopeful that some constructive ideas will assist us in performing our job tasks more efficiently.

Our Crime Line number is 474-2640. Remember this is a secured and untaped line that calls will be taken through for any information that you, the residents, can assist your police department with in apprehending criminals or preventing crimes.

I personally would like to thank the residents and members of the police department for their continued support of myself and the police department.

Respectfully submitted,

Paul J. Cronin  
Chief of Police

#### INVESTIGATIONS DIVISION

In compiling the criminal statistics for 1991, it suddenly became clear that an obvious "shift" had occurred. Although the total number of cases submitted to this office declined by 16.5% [996 in 1990 as compared to 833 in 1991], the percentage of felony cases [major cases] leapt to 38% [385 in 1990 as compared to 496 in 1991]. Fundamentally it would seem that the criminal activities with which we are faced, although slightly fewer, have escalated in seriousness. Consequently, these types of cases inherently require more intense investigation and generally, far more manpower hours to resolve. Understandably, the year's economic crisis as well as a still-evident, socially crippling drug sub-culture may well have played a critical part in this swing of the pendulum.

This Division continues to function with only two officers -- Det. James Cawley and myself. Det. Cawley's persevering approach to his work has certainly assisted this unit in our attempts to "keep up" with a never-ending deluge of new criminal cases as well as the unresolved matters which are still open and require follow-up. This year, however, we lost Det. Cawley for nearly four [4] months during his call to active duty with the National Guard during Operation Desert Shield/Storm.

On numerous cases this year, we have found ourselves involved in cases with far reaching consequences. We have completed and are still involved in cases with multiple jurisdictions [interstate, intrastate and federal]. Additionally, this office remained actively involved in two homicide cases from 1989 off and on throughout the year due to follow-up investigations, witness location and trials.

This writer continues to be active in the interviewing and investigation of cases in which children have allegedly been physically and/or sexually abused and/or seriously neglected. My continued activity in this area is largely due to the recent promotion of YSO Michael Frost to Patrol Sergeant and a new YSO coming on board. Officer James Deshaies has taken over the Youth Services slot and has been busy in multiple stages of training to date. YSO Deshaies has thus far shown great promise and we feel confident that the children will relate well to him. Sgt. Frost's D.A.R.E. program is still going strong -- the positive response continues from children, parents and teachers. We thank Sgt. Frost for his commitment to the children throughout his duration as Y.S.O..

The Prosecutor, Melissa Walker, continues to handle all District Court cases. This year Officer Walker and this writer have pretty much completed the in-house filing systems. Although it still has a few "bugs" which need working out, the system is working. Officer Walker has also been quite active with her responsibilities with our in-house computer system which is now well on it's way.

The Investigations Division continues to control, process, transport and secure all evidentiary and/or possessed property. We are additionally responsible for security of all major crime scenes and the collection of latent evidence. This Division acts as liaison/advisor and assists the Patrol Division with cases on which they may be following up as well as coordinating efforts between our agency and outside law enforcement agencies.

This Division handles administrative duties pertinent to all felony criminal cases handled through this office as well as records keeping for NCIC [criminal network statewide/national], responses to inquiries, etc. . . This writer has been active this year with the State Incident Base Reporting System [IBRS] Committee which is preparing the standardized reporting IBRS system for use in New Hampshire. Det. Cawley has taken over the completion and appropriate federal/state/in-house distribution of fingerprints for us. All misdemeanor and felony arrests are now fingerprinted on a regular basis.

Det. Cawley and this writer additionally respond to crime scenes [where applicable] in order to process those scenes for evidence/forensic items, latent prints, etc. . . All of these activities require manpower hours to accomplish and do not include ALL aspects of the clerical work which we also handle exclusively. This is due to there being no clerical staff for Investigations, Juvenile or Prosecution Divisions.

This writer supervises the Juvenile, Prosecution, Animal Control and Investigations Divisions. This office is also active in the in-house training of new officers as well as in-service training. Officer Walker has been volunteering her time as well to the New Hampshire Police Standards & Training facility in Concord, NH where she teaches academy classes and in-service classes. This writer has also assisted in training at the academy but on a very limited basis. All of the officers in Prosecution, Juvenile and Investigations are cross-trained so that they can fill in for each other in one's absence.

To continue on what was noted in the first paragraph of this report, we received 833 cases for investigation this year [approximately 69.42 new cases per month]. 495 of those cases were felonies. We were able to clear 551 [66.15%] by arrest, indictment, unfounded status or exceptional circumstances -- the remaining 282 are still active and/or suspended. We brought 61 indictments to the Grande Jury and received 58 with 3 being remanded back to District Court -- [95.1%]. 211 cases were never reached and are still pending.

We have now installed a "Crime Line" for confidential informants and information "tips". This line is not funded and no one gets paid for calling but we have found that although it's been slow getting started, we have accomplished 2 major drug interventions and have received regular information -- including the whereabouts of one wanted felon who has recently been arrested in another state. We hope that as time goes on, this line will prove even more fruitful.

We would, again this year, make note of the excellent job being done by the Patrol Division. Their diligence and dedication to their jobs have assisted us in recoveries of property as well as provided much needed intelligence. Much of their work has resulted in arrests and without their constant input, this Division would suffer greatly.

We believe that our community is now awakening to the fact that there must be a joint effort between citizens and police in order to create a proactive unit for the apprehension of criminals and establishment of a safe and secure environment. This is a herculean task but with all of our cohesive efforts, it can be done.

The following are statistics for cases worked by this Division for the year 1991 in comparison to two previous years' figures -- 1989 and 1990:

#### YOUTH SERVICES DIVISION

During the course of 1991, the Youth Services Division continued it's growth with new programs such as "ADOPT-A-COP", "HUG-A-BEAR" AND S.C.I.P. (Seabrook Community Involvement Programs). These programs expanded the involvement of the whole Police Department in getting involved with the community.

With the success of the new programs, we were very pleased to see the continued success of the D.A.R.E. program. D.A.R.E. continues to have the Youth Services Division instruct our future community leaders how to stay drug free and be an effective, contributing member of society.

The Division has seen a reduction in it's court cases and juvenile crime due to the positive effect of the police department, through our collective preventative measures, and our interest in being more than just enforcers, but also care givers.

With the promotion of Michael Frost to Patrol Sergeant and Officer James Deshaies being transferred to Youth Services, the goal of the Division has not changed. The youth in Seabrook are our Hope and Future, and the Youth Services Division is committed as are the members of the Seabrook Police Department, to accomplishing these goals.

OFFICE OF THE PROSECUTOR

A look at the comparative figures for last year shows a noticeable decrease in the case load. This probably can be attributed to our efforts at proactive, visible policing and maybe even a change in public attitude.

This year we continued our college intern program with Northern Essex Community College, however, it was further expanded to include a Winnacunnet High School student from Seabrook. Taking on this younger age worked better than anticipated and so the program will continue.

After many years of work I can finally take a breather having completed a Degree in Paralegal Summa Cum Laude. Next fall I'll go back and complete my Master's Degree. As I educate myself, I also educate others. I continue to be a part-time staff instructor at the N.H. Police Academy teaching a wide variety of subjects throughout southern N.H. to both the in-service officers and the part-time academy. This year also brought me the opportunity to teach a section on the American Trial System to our own bright and responsive History students at Seabrook Elementary School. It was well received and very enjoyable to do.

The following is a statistical synopsis of the year's activities:

<u>1990</u>	<u>1991</u>	
3064	2631	Total cases presented to Court
1596	1233	Found guilty
25	33	Found not guilty
617	447	Pled not guilty, set for trial

#### ANIMAL CONTROL DIVISION

The Animal Control Officer has, once again, ended another busy year. Activity for this Division remained relatively consistent throughout the year. Now we are looking forward to 1992!

With this new year, however, we are faced with the imminent influx of the rabies virus which has been entering into our State and thus, our Town. This virus can, in fact, be fatal to livestock, pets and HUMANS. Therefore, the most important thing that you can do to protect the lives of your pets and family members, is to get your pets [Dogs and Cats] vaccinated. Be certain to supervise your pets and young children -- protecting them from being bitten by other feral animals which may already be infected.

We stress the importance of not feeding wild animals and/or animals not known to you. These animals may in fact be carrying a wide range of diseases -- inclusive of rabies.

The Rabies Clinic conducted in 1991 was not as successful as anticipated. Only seventy-four [74] animals were presented for vaccination. Among those, only eight [8] cats were present.

We must make every effort to improve these numbers this year!!

It is important that we consider our pets as "Members of the Family". Securing your pet will avoid the receipt of news that "Your pet will never come home again".

Feral cats remain a problem. This is mainly due to State Law which does not address the handling of this troublesome animal.

\*\*There is a new addition to your Town Library -- it's "OSCAR", the Snowy Owl. Stop in and see him sometime -- your children will love him!

MOSQUITO CONTROL DEPT.  
1991 Annual Report

Field work began on April 2nd with surveillance of freshwater breeding sites, created by 'snow-melt' and spring rains. With the return of Mosquito Control veteran Derek Griggs, treatment of areas found to support mosquito larvae (larviciding) commenced on April 15th. Following the monthly 'high-run' tide (and 3.75" of rain on April 21st), salt marsh breeding site surveillance and larviciding began the week of April 22nd. Treatment of fresh and salt marsh sites continued throughout the season after heavy rains, and in the case of the salt marsh, at least once a month due to the 'high-run' tides. 'Mac' Larson returned, on a part-time basis, in mid-May to help out on salt marsh treatment weeks and with the evening adulticiding routes. Having two experienced, State certified field assistants has saved a lot of time and money that would have otherwise been spent on training (mosq. identification, use of pesticides & equip., adulticiding routes, preparing for the State exams).

The adulticiding phase (evening spraying of the Town with the spray truck) got started on May 24th and continued through Sept. 18th. Adulticiding was done on 40 separate nights this year with the East side of Town completed 16 times and the West side completed 13 times. Scourge(tm) adulticide (active ingredient: Resmethrin) was sprayed using the Leco ULV sprayer.

The summer of 1991 was a relatively dry one until Hurricane Bob hit on Aug. 19th. Between Aug 18 and 21st, 6.1" of rain fell, activating freshwater breeding sites and salt marsh sites (which had just been treated following the Aug. 11th 'high-run' tide). This extremely heavy rainfall caused high mosquito populations in late Aug. to mid-Sept.

Adult mosquito population monitoring (a State requirement) was accomplished using 3 C.D.C. light traps (baited with CO<sub>2</sub>). As in the past seven seasons, specimens were trapped, counted and identified from the weeks of May 28 to Sept. 10. Monthly influxes of the salt marsh species Aedes sollicitans, (a vicious, daylight biter) were experienced 10-14 days following each monthly 'high-run' tide and were extremely high in the last week of Aug. due to Bob's rainfall. The freshwater species Aedes vexans, was present in relatively low numbers through the dry summer, until Bob hit. Vexans population grew following this heavy rainfall with the highest single week for this species (going back to 1984) occurring the week of

Sept. 10th. Larviciding and adulticiding continued later into Sept. this year because the unusually high water table (for late summer) created by Bob. The species Coq.(Mansonia) perturbans, whose numbers are not directly related to summer rains, showed extremely high populations this year. A single generation per year species, that generally peaks in the first two weeks of July and then steadily dies out, had extremely high numbers through the entire month of July. In fact, 43% of all specimens trapped and identified this year were perturbans (15% in a normal year). Excluding this strange perturbans explosion, populations were down slightly from last year.

Again, 90 greenhead fly box-traps were placed along the perimeters of the salt marshes. The vicious-biting greenhead fly is attracted to the shade of the trap, flies up inside and is trapped in the screened-in section where it dies of dehydration. Each box-trap catches thousands of flies each year. Several box-traps were destroyed or totally lost in the Aug. 19th hurricane and will be replaced next year.

I again would like to thank the Board of Selectmen, Town Manager Steven Clark and all other Depts. for their support and cooperation throughout the year.

I would also like to officially thank my two Field Assistants, Derek Griggs and "Mac" Larson, for their excellent work over the past few years.

Lee G. Brooks  
Supervisor

#### TOWN OF SEABROOK SCHOLARSHIP FUNDS - 1991

The committee has held regular meetings this year.

After reviewing and grading the applications, awards were given to nineteen (19) applicants. Five (5) of these were presented at awards night at the Winnacunnet High School and fourteen (14) recipients were notified by mail.

## 1991 WATER DEPARTMENT REPORT

There were 446,632,256 gallons of water pumped in 1991. This 12,075,398 gallon increase over the previous year was due to the increase in both the outside and industrial-commercial use.

Industrial-commercial use increased from 116,034,390 gallons in 1990 to 126,496,670 gallons in 1991. Public Service Company increased its use over the previous year by approximately 7.2 millions gallons. Others that had increases were K. J. Quinn Company with 1 million and Best Western Inn with .8 million gallons.

There were 23 new services installed in 1991. Of these 6 were commercial, which included Wal-Mart, Sam's Wholesale Club, Moore Lane and Boyd Lane subdivisions, Sea-Breeze Elderly Housing, and a sprinkler service to the former Midwest Fireworks.

Only a few water leaks occurred last year most of which were minor or small leaks. The only large or major leak occurred on a 10" water main that services Bailey Company.

Three fire hydrants were repaired after being hit by motor vehicles, one on Collins Street, the others were on Walton Road and True Road.

The State of New Hampshire, Route 286 bridge replacement kept us busy because of the water main which, was supported by the bridge, had to be removed and replaced. To do this a temporary water main had to be installed along the completed portion of the bridge so that the beach would continue receiving water. Then the old water main was replaced by a new insulated 12" main that was tested, chlorinated, flushed, and put back in service. A spare 16" water main was also installed in the new bridge. This will be used in the future.

Water to the 40 unit elderly housing project on Railroad Avenue was accomplished by the crew. An 8" water main with a fire hydrant was brought onto the property. Off of this a 6" sprinkler service with a 2" potable water service was installed into the building. Flushing, chlorinating, and testing of these mains was also accomplished by the crew.

The crew observed the installation of a 4" sprinkler service to the former Midwest Fireworks.

Two subdivisions were connected to the towns water system. The Boyd Lane subdivision off Folly Mill Road was a minor subdivision. The other was a six lot subdivision off Centennial Street called Moore Lane, included an 8" water main with a fire hydrant.

The Route 286 water tank was painted inside and out. Marcel Payeur Inc. from Sanford, ME did the painting under the direction and guidance from Whitman and Howard Engineers of Wellesley, MA.

Two large malls, kept the department busy. Seacoast Shopping Mall on Route 1 has over 2,600 feet of 10" water mains with 6 fire hydrants. Sam's Wholesale Club on Batchelder Road has 2,500 feet of 10" water mains with 3 fire hydrants. Both projects were overseen by the department.

Widening of a portion of Route 1 caused a great deal of work for the crew. Twenty-one water services were either replaced, moved, or abandoned. This was accomplished with the help of the highway department crew.

Twenty-four acres of land off Old New Boston Road, was purchased for a future well site and pump station. If everything works out, this well could be added to the system by the end of 1992.

Again we would like to thank everyone for observing our partial water ban which was imposed over the summer months. This ban limited outside use of water except between 7:00 p.m. and 8:00 p.m. Hopefully a new well will eliminate a future ban.

Water is a precious and useful resource and should be used wisely and not wastefully.

Respectfully submitted,

Warner B. Knowles  
Water Superintendent

*INDEPENDENT AUDITOR'S REPORT ON FINANCIAL PRESENTATION*

To the Members of the  
Board of Selectmen and Town Manager  
Town of Seabrook  
Seabrook, New Hampshire

We have audited the accompanying general purpose financial statements and the combining and individual fund financial statements of the Town of Seabrook as of and for the year ended December 31, 1990, as listed in the table of contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1B, the general purpose financial statements referred to above do not include the General Fixed Asset Account Group, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Asset Account Group is not known.

In our opinion, except that omission of the General Fixed Asset Account Group results in an incomplete presentation, as explained in the above paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Seabrook as of December 31, 1990, and the results of its operations (and cash flows of nonexpendable trust funds) for the year then ended in conformity with generally accepted accounting principles. Also, in our opinion, the combining and individual fund financial statements referred to above present fairly, in all material respects, the financial position of each of the individual funds of the Town as of December 31, 1990, and the results of operations of such funds for the year then ended in conformity with generally accepted accounting principles.
